

adaptive immune response based on somatic recombination of immune receptors built from immunoglobulin superfamily domains

T cell activation  
positive regulation of cytokine production  
lymphocyte differentiation  
positive regulation of cell adhesion  
positive regulation of cell activation  
positive regulation of leukocyte activation  
regulation of cell-cell adhesion  
leukocyte cell-cell adhesion  
regulation of leukocyte cell-cell adhesion  
positive regulation of defense response  
cytokine secretion  
leukocyte activation involved in immune response  
cell activation involved in immune response  
regulation of T cell activation  
positive regulation of protein secretion  
positive regulation of leukocyte cell-cell adhesion  
regulation of cytokine secretion  
positive regulation of cell-cell adhesion  
lymphocyte activation involved in immune response  
positive regulation of cytokine secretion  
positive regulation of T cell activation  
regulation of tumor necrosis factor superfamily cytokine production  
tumor necrosis factor superfamily cytokine production  
regulation of tumor necrosis factor production
